10 December 1958

MEMORANDUM FOR THE RECORD

SUBJECT: Intelligence Requirements for SENTRY

1. The background of this paper is as follows: ARPA is faced at this time, 10 December, with the problem of getting back on its budget for 117L. Accordingly, but belatedly, ARPA has gone to AFCIN to determine requirements for intelligence to be created by 117L in as much as the purpose of ARPA anyway is to meet intelligence needs.

2. Colonel Walsh and his staff prepared the attached paper and preferred to get the Agency's views.

25X1A 3. General Cabell and Mr. Bissell both concurred in the paper
25X1A but prior to submitting such concurrence, General Cabell wished it
25X1A to be checked out with the offices. Accordingly, on 8 and 9 December
25X1A the undersigned obtained concurrence from the following:
OSI - [REDACTED] OCI - [REDACTED] ORR - [REDACTED]
DDI - [REDACTED] and [REDACTED]

25X1A 4. Colonel Macia of AFCIN was informed of the Agency's
25X1A concurrence by phone prior to noon, 9 December, and Mr. Bissell
was informed simultaneously via [REDACTED]

25X1A 5. In the course of the consultation with the agency, no
official mention was made of CORONA, nor was there a need to do so.
